

Job Title : **Senior Analyst**
Company : Ifinworth Advisors Private Limited.
Location : Andheri, Mumbai

Role Overview

As a Senior Analyst in Valuations, you will work at the intersection of financial analysis, research and client advisory. This role offers hands-on exposure to complex valuation engagements across financial reporting, tax, and intangible assets, while building strong client relationships and contributing to high-quality delivery.

You will collaborate closely with senior team members and clients, applying sound valuation principles, analytical rigour and structured thinking to solve real business problems. The role is ideal for professionals looking to deepen their valuation expertise in a fast-paced, high-accountability environment.

Key Responsibilities

- Execute valuation engagements across financial reporting, tax, intellectual property and intangible assets.
 - Analyse client business models, financial data and market information to develop well-supported valuation conclusions.
 - Collaborate within project teams to structure analyses, meet timelines and ensure quality deliverables.
 - Prepare valuation models, reports and supporting documentation in line with applicable accounting and regulatory standards.
 - Liaise directly with clients and engagement team members to gather inputs, clarify assumptions and address queries.
 - Support project planning, execution tracking and status reporting.
 - Contribute to continuous improvement of valuation methodologies, templates and internal knowledge assets.
-

Skills, Competencies & Experience

To succeed in this role, you should bring a strong analytical foundation, curiosity to learn and a commitment to high-quality client service.

Qualifications & Experience

- Undergraduate degree with strong academic credentials.
- Professional qualification such as CA, CPA, CFA, MBA (Finance) or equivalent.
- 1–2 years of relevant experience in investment banking or valuation or related financial advisory roles.

Technical & Analytical Skills

- Strong understanding of valuation concepts and methodologies.
- Experience in purchase price allocation and impairment testing of goodwill and intangible assets under applicable accounting standards.
- Advanced working knowledge of MS Excel with an interest in building robust, scalable models.
- Hands-on experience with research databases such as Capital IQ, Bloomberg, Factiva, Thomson Reuters or similar platforms.

Professional Capabilities

- Strong analytical and problem-solving skills with attention to detail.
- Ability to manage multiple priorities and contribute effectively within project timelines.
- Clear, structured verbal and written communication skills.
- Strong interpersonal skills with the ability to work collaboratively across teams and with clients.
- High standards of integrity, professionalism and client service orientation.
- Comfort working in a dynamic, fast-paced and learning-oriented environment.

Why This Role

This role offers the opportunity to:

- Build depth in valuation and financial advisory work.
- Gain exposure to diverse industries and complex transactions.
- Work closely with experienced professionals in a high-quality, execution-focused environment.
- Develop skills that support long-term growth in valuation, advisory and financial services.
